

1. What was the date & time your team met?

TODAY 4/6/2025 at 10 AM(GMT+3)

2. What is your team group name?

Teammate squad

3. What is your team's agreed-upon problem statement? It should be related to a GCGO, clear, well defined, including listing the population affected and addressable using technology. Remember, it should be several sentences long, similar to the example provided in your **First Team Meeting Agenda**.

**Problem Statement:** In many rural and low-income areas, access to essential healthcare services is severely limited due to a lack of nearby medical facilities, trained professionals, and affordable medicines. Geographical isolation, poor infrastructure, and financial hardships make it difficult for individuals to receive timely medical care, leading to preventable illnesses and increased mortality rates. Additionally, limited healthcare education means that many communities are unaware of disease prevention methods or basic health management, further exacerbating public health issues. To address this challenge, solutions must focus on integrating technology, improving infrastructure, and fostering community-based healthcare initiatives. Telemedicine, mobile clinics, AI-driven diagnostics, and efficient medication distribution models can bridge the gap between rural populations and medical services. However, barriers such as funding shortages, regulatory restrictions, and cultural resistance must be overcome to ensure long-term sustainability and accessibility, ultimately reducing preventable illnesses and deaths in underserved communities.

4. Share all your team roles, both primary and backup. Write the peer's name and the role(s) they are filling next to it. For example: Josephine Oware - Project Manager (primary); Data Analyst (backup). Each team has 4 - 6 people and you must write at the very least 4 names and 4 team roles. But if for any reason you end up with fewer people, you can still write at least 4 roles (2 primary and 2 backup for each person.)

Reem elfadil - ux researcher (primary) , Data Analyst (backup)

Amir - Project Manager (primary)

Abdulaziz Taju - ux/ui designer(primary)

Omer Ahmed - Data Analyst (Primary),UX/UI Designer(Backup)

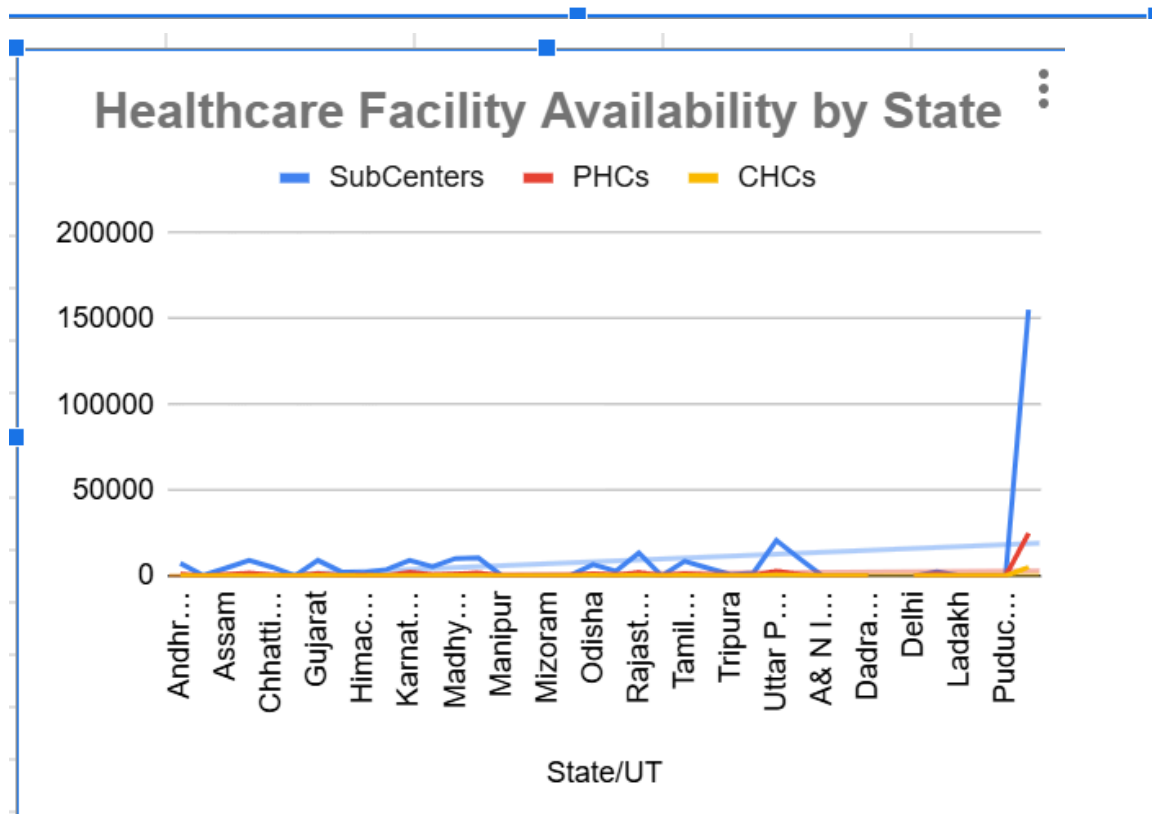

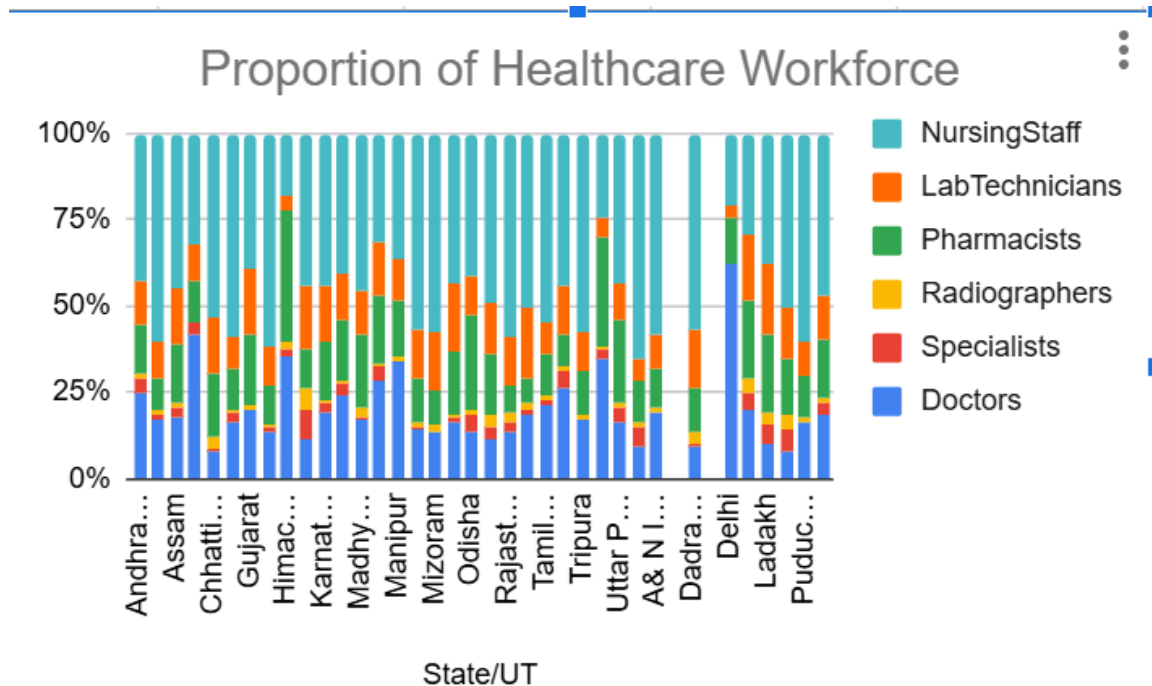

Martha - product owner (primary)

5. What is the scheduled date and time of your Week 6 team meeting?

On sunday every week at 10 AM(GMT+3)

6. Share 2 data visualizations that are relevant to your team's problem statement and align with the team's goals and priorities. These are 2 of the top 3 visualizations that your team selected and agreed upon during **this second online group activity**.

Hint : We used the data Rural Health Statistics - India - 2005, 2019, 2020 from the kaggle website.

7. What are your action items from the team meeting? (what do you need to do before the next meeting?)
  - Finalize the Healthcare Data Analysis
  - Create More Visualizations

8. In 2 - 3 sentences write your analysis of each visualization.
- **Bar Chart for Proportion of Healthcare Workforce which illustrate that the lack of healthcare professional in rural area**
  - **Line Chart for Healthcare Facility Availability by State display the lack of infrastructure in poor area in india.**

9. Write a reflection on your experience and your team's effectiveness so far. Be sure to include:

- What is working well with your team? **Amir**
- What is one good thing that happened during your team meeting?

**One good thing that happened was the successful sharing and discussion of visualizations**

- What is one thing your team could do better in the next meeting?

**In the next meeting, we could improve our time management and ensure that all team members have equal participation in the discussion, avoiding time constraints that may limit contributions**

- Are you experiencing any frustrations with your team? If yes, what can you personally do to lessen the frustration?

**I'm not experiencing major frustrations, but there could be clearer communication on timelines and expectations. Personally, I can ensure I clarify deadlines early on and keep communication lines open to prevent misunderstandings.**

- How would you rate your ability to communicate with your team members on a scale of 1 to 4? (1=extremely poor and 4=excellent) **4**
- What is your biggest concern about working with your team during Phase 2?

**My biggest concern is ensuring that everyone stays on track with the tasks and contributes consistently**

- How might you address that concern as a team?

**We could establish clearer timelines, check-ins, and set shared goals to track progress. A more structured workflow with regular updates could help keep everyone accountable.**

- What is one hope you have for your team during Phase 2?

**I hope that we can continue to build on our collaboration and deliver high-quality insights and solutions. It would be great to see everyone more engaged and confident in contributing their ideas and skills.**

- Overall, how satisfied are you with how well your team is working together? (On a scale of 1 to 4, with 1=extremely poor and 4=excellent) **4**
